We are specialists in assistive technology, creating innovative solutions that combine the latest hardware with the very best software. We provide a service that is friendly, efficient, honest and professional.

Our range of solutions include the Grid Pad collection of devices, the I-Series+ from Tobii Dynavox and Grid Player for iPad. We also supply and support the largest range of eye gaze cameras in the UK/Eire, so you have the best product to suit you and your individual needs.

All systems are powered by Grid 3, our internationally renowned AAC software, providing you with tools for everything from symbol and text communication to environment and computer control.
